

	Supervised Laboratory/ Clinic-30	Laboratory describes a class in which all students are practicing an application of a scientific or technical nature that, for the most part, has already been delivered in the lecture class. It is a course requiring scientific or research focused experiential work where students test, observe, experiment, or practice a field or discipline in a hands-on environment. Content in a lab is based on theory or content from an associated course. Further, all the students in the room are following a similar set of instructions. Because it is instruction-based, it requires less minute-to-minute responsibility for the faculty member to interact with individual students than in a studio. The role is facilitation of students in an exercise-oriented activity for which there is a single goal or outcome.	For completely self-contained laboratories (does not require outside preparation by student), 3 contact hours = 1 credit hour (3:1)  For non self-contained laboratories (require outside preparation by student), 2 contact hours = 1 credit hour (2:1)
	Supervised Laboratory/ Clinic-30	A course requiring students to participate in physical training, physical conditioning, or other physical exercise activities, sports, or games. The physical activity develops fundamental psychomotor skills and health-related fitness components.	2 contact hours = 1 credit hour (2:1)
	Supervised Laboratory/ Clinic-30	A course requiring recital-, performance-, or ensemble-focused experiential work, including individual lessons, where students, through practice or rehearsal, engage in the creative and artistic act of performing works of music, dance, or theatre for a jury or audience.	Credit and contact hours vary, but the minimum standard of 750 contact minutes per semester per credit applies.

	Internship/ Practicum-81	A course requiring students to participate in a partnership, professional employment, work experience, or cooperative education with an entity external to the institution, generally under the supervision of an employee of the given external entity. Contract and/or syllabus required.	Variable: Credit and contact hours are determined on an individual student basis with the assigned faculty member and department head.  Generally: 10 contact hours (1/4 time) = 3 credit hours 20 contact hours (1/2 time) = 6 credit hours 30 contact hours (3/4 time) = 9 credit hours 40 contact hours (full-time) = 12 credit hours
	Internship/ Practicum-81	A course requiring students to participate in a partnership, professional employment, work experience, or cooperative education with an entity external to the institution, generally under the supervision of an employee of the given external entity.	Variable: Credit and contact hours are determined on an individual student basis with the assigned faculty member and department head.

For course sections delivered using technology, the institution must ensure that students are engaged for a \_\_\_\_\_ of course credit. Table 4 provides examples of educational activities and their instructional time equivalencies to guide faculty in the development of curricula and course syllabi. Online courses should provide an equivalent amount of instructional time.
