

Valdosta State University

ADA POLICY:

Students requiring classroom accommodations or modifications because of a documented disability should discuss this need with the instructor at the beginning of the semester. Students not registered with the Special Services Program, should contact the Special Service Office, Nevins Hall 1115 (245-2498)

WITHDRAWAL FROM COURSE:

Students are advised to consult the VSU Undergraduate Bulletin and the VSU Spring 2012 Schedule of classes for information about VSU policies and procedures. *Last day to withdraw is March 1, 2012.* Please note that it is very difficult to withdraw after the midterm.

FEDERAL PRIVACY ACT:

It is illegal to release personal information about an individual to others. Therefore grades, averages, and other personal information about any person will not be released to another person or over email.

REQUIRED READING

Reading from your textbook is required. Only read the sections that correlate with the subject matter covered in lecture. Questions on the test may come from the text.

Informal things that you need to have in print to believe

1. Treat biology like a foreign language. The vocabulary is completely different than any other subject. To be able to speak the language, you must first learn the vocabulary and THEN learn how to speak. In the same way, understanding biology is a two-step process. First, learn the vocabulary and then learn how the words are used to form the major concepts of biology. Only memorizing words will most likely get you a C or D in the class at best.
2. Only follow the sections of the book that I lecture on. You will not be tested on the sections that I skip.
3. Stay up with the material. We take copious amounts of notes in this class. Missing classes generally means missing pages and pages of notes. The best way to succeed in this class is to come to class and review your notes every few days.

Tentative Schedule
Biology 1030 A

Chapter	Topic (<i>Tentative</i>)	Number of Lectures
2	The Chemistry of Life	2
3	A tour of the cell	1
4	The energy of life	2
*****EXAM 1 *****		
6	Respiration	2
5	Photosynthesis	2
7	DNA and Gene Ful4 Tmon
