**Course objective:** To provide students with—

1. Basic knowledge of anatomy and physiology involving the human body.
2. The fundamental needed for entry into careers that use human anatomy and physiology as a foundation
3. A basic knowledge of the human body that will allow them to make wise and educated decisions on their health and the health of their families.

**Text book:** Principle of Anatomy & Physiology by G. Tortora & B. Derickson, 13<sup>th</sup>ed

**Lab. Manual:** Laboratoty manual for Human Anatomy & Physiology, by Michael Smith and Willium J. Laughry

**To be downloaded from this WEB site:** [www.valdosta.edu/~mfkarim](http://www.valdosta.edu/~mfkarim)

**Chapter**

The above syllabus is designed to coincide as closely as possible with your lab. schedule. Primary emphasis on the test will be placed on the notes given in the class. However, some questions on the test will come directly from the book. Therefore it is important that you read the material in the text as listed above in association with the class notes. This will enhance your understanding. Lecture notes are also available in a web site. Students will be able to unload the WEB site and revise the topics during their leisure time

**Test**

**Class attendance and behavior:**

When I am lecturing, I expect students to behave themselves and maintain silence; however, your questions are encouraged. Students who will be found disrupting the class will be removed from the class and if necessary dropped from the course. You are now preparing for the future and successful completion of this course may determine your future job prospects and the programs that you are admitted to in other colleges. Class disruption is rude and inconsiderate of others who are trying to learn. Therefore, good behavior in class is expected as you are now an adult and you should behave as such.

Class attendance will be taken in each period. Students missing three consecutive lectures or consecutive labs without prior permission will receive 'F' for the course. If you are ill or have an emergency, exceptions will be made after proof of the illness or emergency is provided. It is your responsibility to attend classes regularly and get the notes and assignments
