The COEHS minimum requirements (level II) are mandation all initial teacher candidates prepared at Valdosta State University cowever, individual programs may choosester higher minimum requirements for successful completion of clinical autice, and these program requirements be included in the course syllabus for student teaching/instehip for those individual programs.

It is the expectation that candidates strive to achieve a level III ratingcross all standardsherefore, the possible evidence provided includes behaviors expected active candidates performing at level III. When determining the rating for a standard, consider the add/frequency and degree of effectiveness observed.

Rating	Descriptors
Level I	Rarely demonstrated and/or demonstrated inadequately

Professional Behaviors ad Dispositions Assessment (PBDA) Guidelines

The PBDA was developed by a task force of Geoeglucators. The assessment is based on the contributions of dozens of education experts who spent hundreds of hours in its development, and therefore, the task force cautions against changing fathye content of the rubor when using it to assess candidates. Within teacher prepagatprograms, the PBDA is intended to embedded in a longitudinal, comprehensive, and systematic plansupporting preservice teachers.

Program completers should pass the assessment withimum score of "Meets Expectations" on each of the 14 indicators. The target total by the end of the summative assessment is 28 points for 14 items (X 2 points = 28).

Notes on Scoring the PBDA

The PBDA contains 14 criteria, inethform of Outcome Statements, that we been carefully selected by the task force. The score for eatern is designated as follows:

Does Not Meet Expectation	is 0 poir	nts
Developing	1 points	5
Meets Expectations	2 poin	ts
Exceeds Expectations	3 poir	its

Indicators are included for each countore statement to describe the level of performance expected at each scoring level. Assessors should result of the indicators carefully, ibg careful to avoid the tendency to always rate good students at the highest level iterion should only becored as "Exceeds Expectations" when the candidate demonstrates vite for dispositions that identify them as significantly advanced beyond the expectations for their first year of the formation. In most cases, this level

Important note: If an assessor makes more than 5 items as "Not Observed," it should be assumed that the assessor has insufficient knowledge of the notatidate and should not be used to complete the assessment.

Note: Dispositions must be scored by the follogvobservers during the following transition points:

Transition Point		Observation Type/Observer	
XXXX 2999 Course: First semester in program or Entry to the Professionjust prior to beginning program		Teacher Candidate Self-Assessment	
Final Field Experience experience prior to clinic practice/student teaching		University Supervisor	
Mid Formative	Mid-point of clinical practice/student teaching	University Supervisor Mentor Teacher Teacher Candidate Self-Assessment	
Summative	Near end of clinical practice/student teaching	Collaborative with University Supervisor, Mentor Teacher, and Teacher Candidate	

Additional dispositions ratings may be used at the parms discretion. This same form will be utilized for all dispositions ratings.
